

YOU ARE INVITED!

Dr David Moffet and the team members of Active Dental would like to invite you and your family and friends to a special evening dedicated to Invisalign®. This special event will be held on

Wednesday 27th January 2010

from 4.00pm – 7.00pm for 30 minutes

**At Dr David Moffet's Active Dental
Suite 31/152 Marsden Street, Parramatta**

If you are already an Invisalign patient of ours, please bring along a friend so they can also see how Invisalign can give them the smile they have always wanted!

Invisalign® is a method of straightening teeth using a series of clear, almost invisible, removable aligners. Invisalign® combines the doctor's clinical treatment plan with a 3-D, computer-generated model of your teeth showing exactly how Invisalign® aligners will move your teeth into your desired position.

Invisalign® is a great treatment solution for adults and teenagers with fully erupted adult teeth that want to resolve crowding, close unwanted spaces or for patients who have experienced relapse from previous orthodontic treatment.
